

# QuantaMesh BMS T3096-LY5

## A Powerful Spine/Leaf Switch for Datacenter and Cloud Computing

- ONIE Pre-loaded
- SDN Ready
- High Availability
- Ultra-low Latency

Datacenter networks are facing a major paradigm shift toward the disaggregation of software and hardware. This move, combined with the benefits of software-defined networking (SDN) allows network administrators respond quickly to changing business requirements at a lower capital cost as well as reducing the network operations complexity.

QuantaMesh BMS products offer higher performance, increased availability, low latency and better serviceability. QuantaMesh T3096-LY5 supports 96 SFP+ (1/10GbE speed) ports in a compact 1U size. By leveraging the new generation merchant silicon chips, T3096-LY5 is a high performance high density Ethernet switch with an affordable price for the deployment of data center infrastructure. With ONIE (Open Network Installation Environment) pre-loaded on QuantaMesh BMS switches, it provides the flexibility and allows choice of network operating system supported by ONIE installer. This provides agile installation process and faster response for the changing business demand.
